Government Block Demolition & Car Park Construction

Project:

Demolition & Car Park Construction
Office of National Statistics

Client:

Crean Construction Limited

Value:

£300,000

At-a-glance:

- Confined site
- Asbestos removal
- Scaffolding
- Steel framed structure demolition
- Drainage and civils

Hirwaun House, Hirwaun Industrial Estate, Hirwaun, Aberdare CF44 9UL

T: 01685 815100

F: 01685 815101

Walters is accredited to ISO 9001 for Quality Management, ISO 14001 for Environmental Management and OHSAS 18001 for Occupational Health & Safety.

Challenges

The challenge in this instance involved the demolition of a redundant computer block and the construction of a car park on the same footprint at the Office of National Statistics in Newport, South Wales. The Works were undertaken on a confined site within a live Government office facility environment over a 12 week period.

Solution

Walters engaged the services of their HSE licensed supply chain partners to erect scaffolding and remove licensed asbestos containing cladding materials from the exterior of the building under controlled conditions. The building was then soft stripped, dismantled and cleared working from within the footprint of the building at all times. Car park works including drainage, footpath and formation construction as well as kerbing and surfacing followed the demolition. Disruptive works were undertaken outside of normal office working hours to minimise the disruption to the day to day running of the Government facility.
